

I'd like to express my disappointment in yet another governmental travesty, the further easing of media ownership rules.

I hope your commission will awaken to the true detriments that this decision will bring to the real owners of our airwaves (the American public).

I have been taught that governmental bodies were created to protect and serve the citizens of this great country, not to betray them.

Please respond! More importantly, resist your temptation to "cave" under the pressures of your corporate lobbyists.

Respectfully, Peter Con
